Ministry of Environmental Protection

PUBLIC TENDER NUMBER 9/10 FOR OBTAINING PROFESSIONAL CONSULTATION SERVICES
FOR IMPLEMENTATION OF THE POWERS OF THE MINISTRY OF ENVIRONMENTAL
PROTECTION IN RESPECT OF TRAFFIC-RELATED SUBJECTS

To: potential bidders in tender no. 9/10

Clarification document no. 1

1. Question: is it possible for all of the professional team members to be from an international company. If so, will it be possible to conduct the interview via video conference or by phone?

Answer: No. As written in chapter 4 article 2 of the tender the successful bidder of this Tender will supply the necessary services by means of a professional team which shall include a team manager and at least two additional Israeli team members,

2. Question: This type of work can, depending on the needs of the specific client and how much support will be needed for the implementation, be approached from at least 2 different levels of detail and complexity. For that reason, we often find that the corresponding budgets can differ by almost an order of magnitude. To ensure we target the bid exactly towards the work you need done by the International Consulting Body, we would greatly appreciate any sort of indication of the desired order of magnitude for the whole package.

Answer: The comprehensive scope of the work should include a specific analysis of each of the subjects at a level in accordance to the conditions in

Israel. The outcome of the work for each of the topics must include concrete and detailed recommendations for implementation and where necessary alternatives for carrying out the tasks and achieving the goals. This will include a description of the implications of carrying out each topic/task on the scope of the pollution

Best regards
